WEEKENDS

May 19 or Sept 15
Training 11:15-11:40 (Only need to attend once)
Count, Survey & Returns 12:00-2:30

GREAT FOR GROUPS or CORPORATE VOLUNTEERS!

The City of Des Moines needs your help to take part in a nation-wide effort to count the number of bicyclist and pedestrians using our roads, sidewalks, and trails in 19 locations. Volunteers may also conduct surveys to find why people choose to walk or bike over drive, how far they are going, and the purpose for their trip.

This data helps us understand is we are meeting the needs of our residents and helps secure future funding for new trails, sidewalks, and bike lanes! Training will be provided at the beginning of each shift.

Please visit <http://bikepeddocumentation.org/> for more information about this nationwide project.
